

Utah Wing Safety Items – Complete by end of year!

Mon Oct 20, 2014

Hi Everyone,

We are in the last quarter and there are a few things which must be done as we finish the year out!

First, Unit Commanders, as many of you are aware Safety Surveys must be completed in SMS before the end of the year, Dec 31. Do NOT wait until the very end to submit these! If you log in to eservices go to the Safety Management System. In there you will see an icon for Safety Survey or on the far left you will see a link. Make sure you have it filled out for the correct FY and submit.

Next item is ORM or now RM. Please make sure you do an RM briefing in your units as required by CAP Regulations. When you file this safety education you will be prompted to file it as an RM briefing.

Final item is just a reminder to all members: Intro to Safety is a requirement in the Civil Air Patrol and is different from your monthly safety currency. All new members must take intro to safety to fulfill the requirement in CAP regulations. This applies to Senior Members AND Cadets.

If you have any questions or need any assistance, please feel free to contact me at safety@cap.utah.gov.

Thank you very much for all you do!

JONATHAN TODD, Maj, CAP
UTWG Director of Safety
